SECRET

SECRET**1. General**

During the interval covered by this progress letter, the total program activity was directed toward completing the fabrication of the balance of the systems presently on order, and publishing the final version of the instruction guide.

2. Production Status

A total of 40 systems have been shipped to date. The remaining three systems are in test and will be shipped, individually, on 13 December 1957, 20 December 1957, and 15 January 1958.

3. Instruction Guide

The preparation of detailed maintenance information, including tabulated voltage and impedance, and waveforms has been completed, and is in the process of reproduction.

4. Planning

During the next report interval, the total program effort will continue to be directed toward completing the balance of systems presently on order, and delivering the final version of the instruction guide.
